ABOUT UBIMET

UBIMET is a leading commercial provider of precise meteorology services and severe weather warnings. The global company headquartered in Vienna, Austria has offices in Karlsruhe, Melbourne, Munich, New York and Zurich employing 250 staff from 25 nations. UBIMET provides high-quality meteorological data, forecasts and alerts enabling weather-dependent industries around the globe to increase safety and efficiency.

UBIMET’s expertise and reliable weather solutions have convinced customers from industries such as aviation and rail, construction, energy, insurance, media as well as event organizers. UBIMET has delivered accurate weather data for Formula 1 since 2014.

The company was founded as a start-up by Michael Fassnauer and Manfred Spatzierer in Vienna in 2004. The two founders, driven by a passion for meteorology, are still the driving force behind the company today. Red Bull has been a strategic partner since 2012 expanding the company’s global reach.

YOUR CHALLENGES

WHEN TO STOP AND RESUME GROUND-HANDLING ACTIVITIES

OPTIMAL SCHEDULING OF GROUND-HANDLING RESOURCES

WHETHER AND WHICH SNOW-CLEARING EQUIPMENT WILL BE REQUIRED

ANTICIPATING CONDITIONS REQUIRING DE-ICING

PREPARING FOR DISRUPTIVE WEATHER PATTERNS

GUIDANCE ON SAFETY FOR PASSENGERS AND EMPLOYEES

OUR FEATURES

PLANNING CALENDAR

• Optimized planning for ground operation shifts and resources
• Automatic alignment with meteorological forecasts
• Displayed as green / yellow / red days in Aviation Weather Cockpit
• Planning horizon of up to 8 days

WARNINGS AND ALERTS

• Weather-related warnings when parameter thresholds are exceeded (e.g. wind, temperature, precipitation, snow)
• Severe weather warnings provided by meteorologists
• Ability to precisely define user groups receiving alerts
• Distributing early warnings via Aviation Weather Cockpit, e-mail, and text message

THUNDERSTORM TRACKING

• Detecting thunderstorms in the vicinity of the airport
• Short-term forecasts of thunderstorm movements
• Calculating estimated thunderstorm arrival time
• Distributing early warnings via Aviation Weather Cockpit, e-mail, and text message

LIGHTNING DETECTION

• Patented 3-D measurement algorithm
• Real-time lightning information
• Accuracy within 75 meters
• Ability to precisely define lightning alarms (e.g. ICAO 8/5 km radius recommendation)

YOUR BENEFITS

INCREASE EFFICIENCY

• Reduce ground-handling downtimes
• Maximize airport capacity
• Facilitate automated decision-making
• Anticipate disruptive events earlier
• Adapt resource planning to weather situation

REDUCE COSTS

• Economical resource planning
• Reduce additional costs resulting from over- or under-staffing
• Optimize allocation of standby resources
• Reduce cost due to lost capacity
• Reduce accident-related claims

ENHANCE SAFETY

• Enable proactive safety measures by early and accurate weather warnings
• Reduce the risk of weather-related injuries to passengers and employees
• Prevent damages to aircraft and infrastructure
• Enhance overall sense of security
• Increase customer and employee satisfaction
