ALL CLEAR

THE QUICKEST AND SAFEST WAY TO REDUCE AIRPORT DOWNTIME DUE TO THUNDERSTORMS
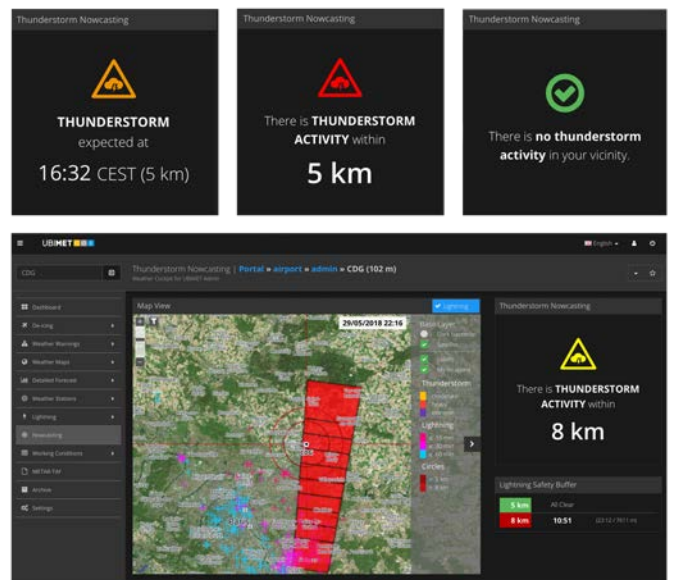

THE CHALLENGE

- Decide when to stop and resume ground handling activities during thunderstorms
- Avoid unnecessary weather related downtimes
- Guarantee passenger and employee safety
- Proof of comprehensible decision making process

Minimize Airport Downtime

THE SOLUTION

Superior Lightning Safety Concept - unique combination of:

- **Thunderstorm Nowcasting** tells you at what time exactly a thunderstorm will arrive at your airport
- **High-precision lightning detection network** warns you in realtime of lightning activity in your vicinity
- **Local field mills** measure the potential of lightning strikes directly above your airport

THE BENEFITS

- **50-70% reduction** of ground handling down time
- Reliable and transparent decisions, based on high precision real-time information
- Increased resource utilization
- Highest airport safety and operational efficiency

5 Star Safety & Efficiency

Used by renowned airports worldwide
